Contents Volume 36, 2003

Research Papers

Climate change scenarios and the effect of sea-level rise for Estonia
A. Kont, J. Jaagus and R. Aunap 1

Medieval Warm Period, Little Ice Age and 20th century temperature variability from Chesapeake Bay
T.M. Cronin, G.S. Dwyer, T. Kamiya, S. Schwede and D.A. Willard 17

Two-dimensional modeling of gas hydrate decomposition in the northwestern Gulf of Mexico: significance to global change assessment
A.V. Milkov and R. Sassen 31

Millennial-scale climate variations recorded in Early Pliocene colour reflectance time series from the lacustrine Ptolemais Basin (NW Greece)
J. Steenbrink, M.L. Kloosterboer-van Hoeve and F.J. Hilgen 47

Recent reversal of Neoglacial climate cooling trend in the Swedish Scandes as evidenced by mountain birch tree-limit rise
L. Kullman 77

Earth rotation and ENSO events: combined excitation of interannual LOD variations by multiscale atmospheric oscillations
D. Zheng, X. Ding, Y. Zhou and Y. Chen 89

On sensitivity of ocean circulation to sea surface salinity
D. Seidov and B.J. Haupt 99

Paleoprecipitation estimates for the Lake Naivasha basin (Kenya) during the last 175 k.y. using a lake-balance model
A.G.N. Bergner, M.H. Trauth and B. Bookhagen 117

The relative importance of climate change and the physiological effects of CO_2 on freezing tolerance for the future distribution of *Yucca brevifolia*
K.P. Dole, M.E. Loik and L.C. Sloan 137

SPECIAL ISSUE

THE EEMIAN INTERGLACIAL: A GLOBAL PERSPECTIVE

Edited by Th. van Kolfschoten, P.L. Gibbard and K.-L. Knudsen

The Eemian Interglacial: a Global Perspective. Introduction
Th. van Kolfschoten, P.L. Gibbard and K.-L. Knudsen 147

Marine Isotope Substage 5e and the Eemian Interglacial
N.J. Shackleton, M.F. Sánchez-Goñi, D. Pailler and Y. Lancelot 151

Last Interglacial conditions in southern Europe: evidence from Ioannina, northwest Greece
P.C. Tzedakis, M.R. Frogley and T.H.E. Heaton 157

Stable East Asian monsoon climate during the Last Interglacial (Eemian) indicated by paleosol S1 in the western part of the Chinese Loess Plateau
F.H. Chen, M.R. Qiang, Z.D. Feng, H.B. Wang and J. Bloemendal 171

Interglacial–glacial Fuquene-3 pollen record from Colombia: an Eemian to Holocene climate record
T. van der Hammen and H. Hooghiemstra 181

Definition of the Middle–Upper Pleistocene boundary
P.L. Gibbard 201

Marine Isotope Stage 11 as an analogue for the present interglacial
M.F. Loutre and A. Berger 209

Research Papers
The response of the African summer monsoon to remote and local forcing due to precession and obliquity
E. Tuenter, S.L. Weber, F.J. Hilgen and L.J. Lourens 219
Surface and deep water response to rapid climate changes at the Western Iberian Margin
J. Schönfeld, R. Zahn and L. de Abreu 237
A physical mechanism for the Atlantic–Pacific flow reversal in the early Miocene
A.W. Omta and H.A. Dijkstra. 265
Continental European Eemian and early Würmian climate evolution: comparing signals using different quantitative reconstruction approaches based on pollen
S. Klotz, J. Guiot and V. Mosbrugger. 277
Secular glacier mass balances derived from cumulative glacier length changes
M. Hoelzle, W. Haeberli, M. Dischl and W. Peschke 295
